Homeless Missourians Information System

A Tool Toward Housing All Missourians

What the HMIS Can Do

- **Client Intake and Assessment**
- **Shared and Private Case Management**
- **Service Utilization Tracking**
- **Bed Space Management**
- **Agency & Program Administration**
- **System-wide Administration**

HMIS Users Can Be

*Emergency Shelters

*Transitional Housing

Supportive Services

Food Pantries/Drop In Centers

*Permanent Supportive Housing

Outreach

Mental Health Services

Domestic Violence

*included in scope of 3 year HUD grant

Client Intake, Assessment & Referral

Enables Providers to collect key data about:

- client demographics
- individual family members
- income levels and sources
- residential history
- employment history
- mental and physical health issues
- educational status
- service needs
Having the HMIS Means…

Clients benefit from streamlined referrals
Agencies can coordinate service delivery

- Appropriate shelter space can be identified and allocated efficiently
- Referral(s) to internal and external programs can be documented and tracked over time
- Needed services can be identified and recorded

Case Management
Shared/Private

Caseloads can be managed at an agency, program or counselor level. Case managers can:

- Create client specific case plans
- Detail client progress over time
- Define goals \ track outcomes
- Manage follow up schedule

Service Tracking

- Identify service utilization patterns by client

- Prevent service duplication and/or overlap

- Enables Providers to leverage limited resources

Bed Space Management

System-wide Information Showing Available Bed Space
- ✓ By location
- ✓ By type

**Agency Specific Information**
- ✓ Available bed space by type
- ✓ Occupied bed space by client

Administration & Analysis

Agency or Program Level

- **Monthly activity**
- **Units of service**
- **Outcome measures**

Region or Statewide Level

- **Point in time numbers**
- **Unmet needs/gaps in service**
- **Prevalence data**
